September 27, 2019 (Updated)

To the Honorable Mayor, Members of the City Council and the citizens of Joshua:

In accordance with the Civil Statutes of the State of Texas, the adopted budget for the fiscal for beginning October 1, 2019, is herein finalized *per direction and adoption of the City Council*. The budget is intended to present, in financial terms, the overall plan for providing municipal services during the forthcoming year. This budget provides funding for planned expenditures, net contingency appropriations, for all governmental funds totaling \$6.97MM.

The FY 2019-2020 budget is balanced with the use of fund balances from prior years. The use of any fund balance is in accordance with the City's Fund Balance Policy.

Highlights of the major operating funds are as follows:

GENERAL FUND

The General Fund is used to account for most of the day-to-day operations of the City which are financed from property taxes and other general revenues. Activities funded by the General Fund include those of all staff departments within the City, except for activities of debt service and special revenue fund types. Overall, taxable property values are expected to increase over FY 2019 values by 5.35%. The Property Tax rate will be <u>reduced</u> by \$0.01 from \$0.77527/\$100 to \$0.76527/\$100 of assessed valuation in FY 2020.

General Fund Revenue Sources

Property Taxes

The annual revenue generated by this source is the product of the property tax rate established by the City Council and the appraised value of the property within the city limits. Property taxes are the largest single source of revenue for the General Fund, representing 47% of the budgeted FY 2020 revenues, which is a reduction of -4% from the previous fiscal year. Total assessed revenues in FY 2020 are expected to increase 10.9% from the prior year. The Proposed Tax Rate dedicated to general operations is \$0.550877/\$100 assessed valuation and the rate dedicated to debt service is \$0.214393/\$100.

Assessed Value of Taxable Property (in Millions)

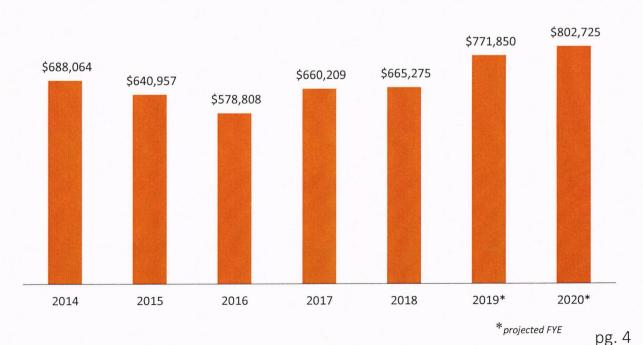

The year-to-year increases in property tax revenues from FYE 2017 to FYE 2019 has been due in large part to the current growth pattern of the region which has affected both new construction as well as increased market appraisals from the Johnson County Appraisal District. According to the North Texas Council of Governments, from 2016 to 2019, the City of Joshua has experienced a population increase of approximately 3.7% (\approx 6,680 to \approx 6,930). Projected 2019 year-end (calendar) new building permits issued by the City show an average year-to-year increase of 46.4% since 2016. From 2016 to 2019, assessed value of taxable property has increased by an average of 9.75%.

The rate of growth is expected to continue during the 2019 tax year due to the completion of new phases of existing residential subdivisions as well as new subdivisions that have completed the review and approval phases and are likely to begin construction during in the year. Commercial construction has also contributed to growth with several new builds occurring during the current 2018-2019 fiscal year, a trend that is also expected to continue into 2019-2020.

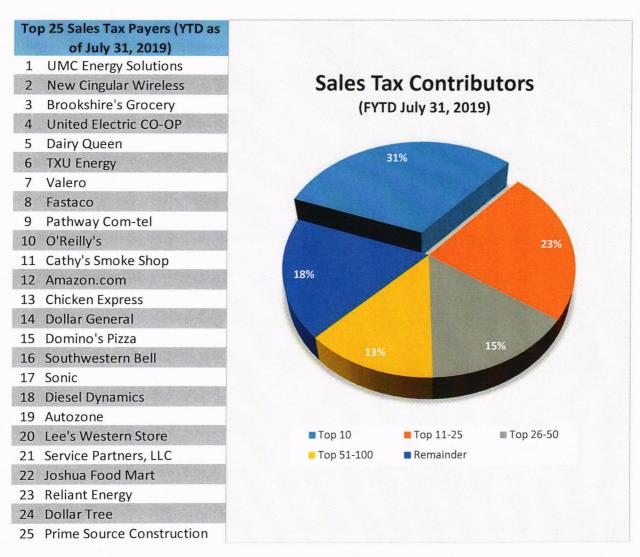

Sales Taxes

The annual revenue generated by this source is the product of the city's local sales tax rate of \$0.01. Sales taxes are the second largest source of revenue for the General Fund, representing 15% of the budgeted FY 2020 revenues and, when combined with Property Taxes, fund over 60% of all General Fund expenditures. The city continues to experience considerable growth that has contributed to an increase of sales tax revenue since FY 2016 of 29.1%. (In late 2015, the city lost its #1 sales tax contributor (Wedge Industries) to a company consolidation, causing a significant loss of revenue in FY 2016.) This has resulted in an increase of almost 10% above budgeted amounts for FYE 2019. Given the growth trend of the last three (3) years, projections indicate a continuation of this rate, and yet budgeted at a conservative 4% for FY 2020.

Sales Tax Receipts 2014-2020*

The main contributors to this growth have been in the General Services, Retail, Professional Services, Food and Manufacturing industries. Over the last three (3) years, the city's Top 10 sales tax payers have contributed an average 20.3% of the city's total annual collections and the Top 25 contributed an average of 39.3%. For the current 2018-2019 fiscal year, the percentages are 31% and 54%, respectively, through July 31, 2019.

General Fund Expenditures

General Fund expenditures for FY 2020, including Transfers, are proposed to be a total \$4.96MM. This represents an overall increase of 20.2% compared to expenditures for the FYE 2019 adopted budget. The increase is primarily due to 1.) increased costs associated with planning and development — much of which was caused by changes in state law that were approved during 2019 legislative session; 2.) a change in how the city accounts for fees collected and then sent through to the city's trash collection contractor (this revisions was advised by a third-party auditor), 3.) an increase in the fees levied by the Johnson County Commissioner's Court in FYE 2019 for dispatch services provided to the Joshua Police Department by the Johnson County

Sherriff's Office and 4.) the potential addition of personnel in the Fire Department (offset in large part by federal grants.)

Expenditures are expected to balance with revenues, which include appropriation of previous year's fund balance. Transfers are for capital expenditures per the 5-year Capital Improvements Plan are specifically for Public Works fleet replacements and equipment and fleet replacements for the Police Department.

DEBT SERVICE FUND

The Debt Service Fund is a legally restricted fund utilized to account for revenues recognized to liquidate the debt service requirements for the City's general obligation debt and to account for short-term Notes Payable. This fund is budgeted to have Revenues of \$919,630, including Transfers In, and Expenditures of \$919,630.

CAPITAL RESERVE FUND

The Capital Reserve Fund is used to account for revenues and expenditures associated with the purchase of vehicles, equipment and for facility and public infrastructure improvements in accordance with the City's Capitalization Policy and 5-Year Capital Improvements Plan. Revenues are budgeted at \$449,455, including Transfers in. Expenditures are projected to be \$311,690. It is the goal of the City to transfer any and all savings in fleet maintenance in General Fund to the Capital Reserve Fund at the end of each FY.

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for revenue allocated for restricted purposes or as specified by law.

Economic Development Funds

Economic Development funds give the city the ability to finance new and expanded business enterprises within the community through economic development corporations (EDCs). Chapters 501, 504 and 505 of the Local Government Code outline the characteristics of Type A and Type B EDCs, authorize cities to adopt a sales Taxes to fund the corporations and define projects EDCs are allowed to undertake. These funds are used to account for revenue allocated for restricted purposes or as specified by law.

The budget for the Type A EDC provides revenues of \$389,325. Expenditures budgeted for FY 2020 include Business Development, capital improvements, debt service and Transfers Out totaling \$433,230.

The budget for the Type B CDC provides revenues of \$405,725. Expenditures budgeted for FY 2020 include Business Development, park construction, operation and maintenance, and Transfers totaling \$339,250.

Municipal Court Technology & Building Security Funds

The Municipal Court Technology Fund is a fund established by law to assist in the funding of expenditures related to the purchase of or to maintain technological enhancements for the municipal court. The Municipal Court Building Security Fund is also a fund established by law and accounts for the expenditures related to security for the municipal court. Total revenues for these funds are projected to be \$9,600 with expenditures of \$8,500.

Hotel Occupancy Taxes Fund

The Hotel Occupancy Taxes Fund is a fund established by law to assist in the funding of expenditures related to tourism and community development. Total revenues for this funds is projected to be \$39,600 with expenditures of \$0.

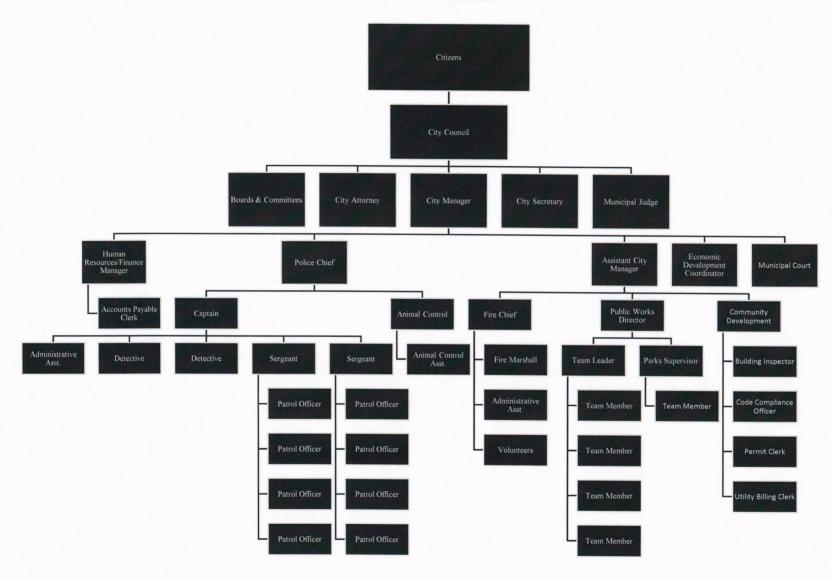

SUMMARY & ACKNOWLEDGMENTS

The FY 2019-2020 Annual Operating Budget for the City of Joshua is the product of many hours of deliberation and consideration. I would like to express my appreciation to the Finance Manager Joanna McClenny and Assistant City Manager Mike Peacock, for their assistance in planning and drafting of this budget.

Respectfully submitted,

Joskua Jones City Manager

CITY OF JOSHUA ORGANIZATION CHART

City of Joshua Fund Balance Policy (Approved & Adopted September 2017)

Purpose

The Council recognizes that the maintenances of a fund balance is essential to the preservation of the financial integrity of the City and is fiscally advantageous for both the City and the taxpayer. This policy establishes goals and provides guidance concerning the desired level of fund balance maintained by the City to mitigate financial risk that can occur from unforeseen revenue fluctuations, unanticipated expenditures, and similar circumstances. Specifically, the City desires to maintain adequate fund balances (reserves) in the City's various funds to:

- Provide sufficient cash flow for operations
- Provide for fluctuations in capital expenditure project spending
- Improve investment-grade bond ratings
- Ensure long-term fiscal sustainability

Authority

The Joshua City Council is responsible for the approval of financial policies which establish and direct the operations of the City of Joshua. The City Manager is responsible for carrying out the policy directives of the City Council and managing the day-to-day operations of all city departments and serves as the city's Chief Financial Officer. As the Chief Financial Officer, the City Manager shall administer this policy.

Definitions

<u>Fund Balance</u> – a measurement of available financial resources and is the difference between total assets and total liabilities in each fund. Classifications within Fund Balance. GASB Statement 54 distinguishes fund balance classified based on the relative strength of the constraints that control the purposes for which specified amounts can be spent. Beginning with the most restrictive constraints, fund balance amounts will be reported in the following categories:

Non-spendable fund balance – amounts that are not in a spendable form (e.g., inventory) or are legally or contractually required to be maintained intact (e.g., permanent fund principal).

<u>Restricted fund balance</u> – amounts that can be spent only for the specific purposes stipulated by external parties either constitutionally or through enabling legislation (e.g., grants or donations).

<u>Committed fund balance</u> – amounts that can be used for only the specific purposes determined by a formal action of the City Council. Commitments may be changed or lifted only by referring to the formal action that imposed the constraint originally (e.g., the council's commitment in connection with future construction projects).

<u>Assigned fund balance</u> – amounts intended to be used by the government for specific purposes. Intent can be expressed by the City Council or by a designee to whom that governing body delegates the authority. (In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed but by definition, being account for in a separate fund, are intended to be used for the purpose of that fund).

<u>Unassigned fund balance</u> – includes all amounts not contained in other classifications and is the residual classification of the general fund only. Unassigned amounts are available for any legal purpose.

Policy

The responsibility for designating funds to specific classifications shall be as follows:

Committed Fund Balance

The City Council, as the City's highest level of decision-making authority, shall establish, modify, or rescind a fund balance commitment by resolution.

Assigned Fund Balance

The City Manager may assign fund balance to a specific purpose.

Minimum Unassigned Fund Balance General Fund

It is the goal of the City to achieve and maintain an unassigned fund balance in the general fund of not less than 25% of the general fund expenditures. If the unassigned fund balance falls below its goal, the City shall develop a corrective action plan within the same year and take actionable steps. City Council shall seek to preserve the fund balance in the budget process when considering new programs and services and will consider financial resources available or needed in other funds in assessing the adequacy of the general fund.

Order of Expenditure of Funds

When an expenditure can be charted to multiple categories of fund balance (e.g., a project is being funded partly by a grant, funds set aside by the City, and unassigned fund balance), the most restricted category will be used first, then the next-most restricted category or categories.

Excess Fund Balance

Should the situation present itself where the City has an unrestricted fund balance in the general fund above the need of the foreseeable future, it is the policy of the City that fund balance not be used as a funding source for ongoing recurring expenditures. For example, the City may achieve unexpected savings during a fiscal year, creating a one-time surplus. One-time fund balance surpluses are only to be used as a funding source for one-time expenditures.

CAPITAL IMPROVEMENT FUND

CAPITAL IMPROVEMENTS PROGRAM POLICY

Capital Improvement Program Summary

The City of Joshua prepares a Capital Improvement Program (CIP) each year that is in addition to its Annual Operating Budget. The CIP is a listing of planned capital projects for the upcoming five-year period together with the expected costs and the anticipated methods of financing. The CIP typically includes the construction of infrastructure and municipal facilities as well as the acquisition of large or specialized equipment. The CIP involves identification, management, and implementation of CIP projects. The process includes input from City staff, citizens, and

City Council. Recognition of the community needs and balancing the infrastructure demands with the funding available, is the goal of the CIP.

CAPITAL IMPROVEMENT PROGRAM POLICY

The purpose of the Capital Improvement Program (CIP) is to implement and facilitate the city's comprehensive plan. A capital improvements program is a blueprint for planning a community's capital expenditures and is one of the most important responsibilities of local government officials.

Capital Improvement: An expenditure in excess of \$25,000 for the planning, design and construction of a physical improvement and/or associated fixed equipment and having a useful life of five years or more. An initial project cost shall include all factors of the project (i.e. land, buildings, machinery, equipment, furniture). This definition is intended to include, but not limited to, the following: Any acquisition of land for a public purpose. — All related expenditures for land whether or not they meet the dollar limitation previously mentioned. This includes right-of-way acquisitions.

- 1. Any construction of a new facility (a public building, or water lines, playfield etc.), or an addition to, or extension of, such a facility and all related expenditures for structures regardless of cost (i.e., architectural, renovation, addition to, engineering).
- 2. A nonrecurring rehabilitation (something which is infrequent and would not be considered annual or other recurrent maintenance and repair) or major repair of all or a part of the a building, its grounds, or a facility, including streets, and storm drainage, provided that the cost is \$50,000 or more and the improvement will have a useful life of 10 years or more;
- 3. Any planning, feasibility, engineering, or design study related to an individual capital improvement project, or to a program that is implemented through individual capital improvement projects

A Capital Improvement Program coordinates community planning, financial capacity and physical development. The program is composed of two parts — a capital budget and a capital program. The capital

program is a plan for capital expenditures that extends five years beyond the capital budget. Development of a CIP that will insure sound fiscal and capital planning requires effective leadership and the involvement and cooperation of all municipal departments.

Due to the limited amount of available funds, the CIP serves to establish a priority for the many necessary projects. Therefore, the CIP will be updated annually in order to incorporate the changing priorities, needs, and funding sources.

A complete, properly developed CIP has the following benefits:

- 1. City funds will be spent for improvements compatible with the city's long-term goals and needs, with funds spent on high priority projects first.
- 2. Facilitates coordination between capital needs and the operating budget.
- 3. Enhances the community's credit rating, control of its tax rate, and avoids sudden changes in its debt service requirements.
- 4. Identifies the most economical means of financing capital projects to ensure improvements will not cause a financial burden on the city.
- 5. Increases opportunities for obtaining federal and state aid.
- 6. Focuses attention on community objectives and fiscal capacity.
- 7. Keeps the public informed about future needs and projects.
- 8. Encourages careful project planning and design to avoid costly mistakes and help a community reach desired goals.

Inclusion of a project as a CIP request does not ensure that the project will be funded at any time in the future, but it does assure that the project will be evaluated on its merits relative to other proposed CIP projects. Major maintenance projects such as street resurfacing or a new roof for a building should normally be included in the city's operating budget and are not included in the CIP.

CITY OF JOSHUA, TEXAS

RESOLUTION NO. 2018-05

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF JOSHUA, TEXAS CREATING A CAPITALIZATION POLICY FOR CAPITOL ASSETS OF THE CITY OF JOSHUA, TEXAS

WHEREAS, there is a need to establish a capitalization policy for budgeting and auditing purposes; and

WHEREAS, there is a need to set standards of accounting for the City of Joshua assets according to Government Accounting Standards Board Statement 34 with regard to categories and threshold amounts to be capitalized.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF JOSHUA, TEXAS THAT:

SECTION 1

Capital assets categories and thresholds will be:

| Land/land improvement | Any Amount |
|-----------------------------------|-------------|
| Building/building improvements | \$25,000.00 |
| Facilities and other improvements | \$25,000.00 |
| Infrastructure | \$25,000.00 |
| Personal property | \$ 5,000.00 |
| Leasehold improvements | \$25,000.00 |

SECTION 2

For clarification purposes of this policy the above items are generally defined as, but not expressly limited to the following definitions:

Land/land improvements is the purchase price or fair market value at time of gift, any commissions, professional fees, land excavation, fill, grading, drainage, demolition of existing building (less salvage), property removal (relocation or reconstruction) of others (railroad, telephone, and power lines), date of purchase accrued mortgage interest and any unpaid taxes and right of way cost.

A building is a structure that is permanently attached to the land, has a roof, and is partially or completely enclosed by walls. A building improvement must extend the life of the building or increase the value of the building. Examples of capitalized building improvements are structural changes and installation or upgrade of roofing, heating and cooling systems, electrical, etc.

Facilities are considered to be assets built, installed or established to enhance the quality or facilitate the use of land for a specific purpose. Facility improvements are considered to be fencing, landscaping, parking lots, recreation areas, septic systems, and pavilions.

Infrastructure is usually considered stationary and can be preserved for a significantly greater number of years than most capitol assets. They are often linear and continuous nature. Infrastructure improvements should extend the useful life and/or increase the value by twenty~ five percent (25%) of the original cost or life period. Examples of infrastructure are streets, curbs, gutters, sidewalks, fire hydrants, bridges, drainage facilities, radio towers, light systems and signage.

Personal property is fixed or movable tangible assets to be used for operations that the life of extends beyond one year. Examples of personal property are vehicles, other motor vehicles, furnishings and equipment.

Leasehold improvements are the construction of new buildings or improvements made to existing structures by the lessee, who has the right to use these leasehold improvements over the term of the lease.

DULY PASSED, APPROVED AND ADOPTED BY THE CITY COUNCIL OF THE CITY OF JOSHUA, TEXAS ON THIS THE 17TH DAY OF MAY, 2018

FIVE-YEAR CAPITAL IMPROVEMENTS PLAN FYE 2020 - 2024

CAPITAL IMPROVEMENTS PROGRAM

"A capital improvements program is a schedule of one time municipal expenditures for major facilities, along with cost estimates and sources of financing. The purpose of the CIP is to establish an orderly plan for setting priorities and offering a means of analyzing the city's ability to pay for the acquisition or construction of facilities to meet long-range community needs."
